

## График отворени обучения, водени от инструктор Schedule of public Instructor-led trainings

### IBM

Location	Date	Instructor
----------	------	------------

#### AU14BG AIX 6 System Administration I: Implementation, 5 day

Learn to install, customize, and administer the AIX operating system in a multiuser environment using System p server. This course is based on AIX 6.1, but is also appropriate for prior releases of AIX

Sofia	22.11 - 22.11	Aleksey, Stoinovsky
-------	---------------	---------------------

#### TM502BG IBM Tivoli Storage Manager 5.5 Implementation and Administration, 5 day

This course is the first of two 5-day instructor-led courses for implementing and administering IBM Tivoli Storage Manager (TSM). In hands-on practice, you work with a data management strategy to perform the following tasks: - Install the TSM 5.5 server, TSM backup-archive client, and the Integrated Solution Console Administration Center. - Create and configure hierarchies of storage pools. - Define policies to manage the flow of data from disk to disk or tape media. - Back up and restore client data. - Archive and retrieve long-term and offsite data. - Automatically back up and restore the TSM databases and storage pools from off-site data storage pools.

Sofia	11.10 - 11.10	
-------	---------------	--

#### WM201BG: IBM WebSphere MQ V7 System Administration (Windows Labs), 4 day

Sofia	15.11 - 15.11	
-------	---------------	--

### Iron Port

Location	Date	Instructor
----------	------	------------

#### IronPort: Securing Your Email with C-Series, Part I (Basic), 2 day

This course provides a thorough foundation on how to successfully install, configure, and administrate IronPort email security appliances. . Attendees will also learn about Internet email concepts and standards, and will receive an overview of other product features that can be used for more customized configurations.

Sofia	16.11 - 20.11	Deniz, Kaya
-------	---------------	-------------

### ITIL

Location	Date	Instructor
----------	------	------------

#### ITIL v3 Foundation, 3 day

This course, based on the ITIL best practice service lifecycle approach, provides a practical understanding of the key concepts, principles, processes and functions that enables successful IT Service Management (ITSM) provision.

Sofia	12.10 - 14.10	Marcus, Inglez
Sofia	09.11 - 11.11	Marcus, Inglez

#### ITIL v3 Service Strategy, 4 day

Sofia	12.11 - 15.11	Marcus, Inglez
-------	---------------	----------------

### Network+

Location	Date	Instructor
----------	------	------------

#### Network+ Certification, 5 day

CompTIA Network+ validates the knowledge and skills of networking professionals. It is an international, vendor-neutral certification that recognizes a technician's ability to describe the features and functions of networking components and to manage, maintain, troubleshoot, install, operate and configure basic network infrastructure.

Sofia	18.09 - 20.09	Boneva, Irina
-------	---------------	---------------

### Oracle

Location	Date	Instructor
----------	------	------------

#### Oracle Database 10g: Administration I, 5 days, 5 day

In this course, students will perform key administrative tasks in Oracle Database 10g, such as creating and controlling databases, administering users, implementing security features, monitoring performance, and performing backup and recovery.

Sofia	02.11 - 06.11	Valeri, Simeonov
-------	---------------	------------------

#### Oracle Database 10g: Administration II, 5 days, 5 day

Sofia	23.11 - 27.11	Valeri, Simeonov
-------	---------------	------------------

## Oracle Database 10g: Advanced PL/SQL Programming & Tuning, 3 days, 3 day

Sofia 19.10 - 21.10 Yassen, Hubenov

## Oracle Database 10g: Introduction to SQL programming - complete, 5 days, 5 day

In this class, students will learn how to create, retrieve, and manipulate objects in Oracle10g Structured Query Language (SQL). Students will also be introduced to Oracle 10g database features and tools. The Oracle 10g release has greatly enhanced the features and functionality of PL/SQL. Students will learn the fundamentals of the PL/SQL programming language. Students will write stored procedures, functions, packages, and triggers, and implement complex business rules in Oracle. Students will learn programming, management, and security issues of working with PL/SQL program units. Programming topics will include the built-in packages that come with Oracle, the creation of triggers, and stored procedure features.

Sofia 12.10 - 16.10 Stefan, Georgiev

## Oracle Database 10g: Performance Tuning, 3 day

Sofia 09.11 - 11.11 Yassen, Hubenov

## Oracle Database 10g: PL/SQL Programming, 5 days, 5 day

This advanced course helps PL/SQL programmers take advantage of language features, advanced techniques, and packages and facilities provided by Oracle to develop and tune efficient and effective PL/SQL subprograms. Students will learn the fundamentals of the PL/SQL programming language. Students will write stored procedures, functions, packages, and triggers, and implement complex business rules in Oracle. Students will learn programming, management, and security issues of working with PL/SQL program units. Programming topics will include the built-in packages that come with Oracle, the creation of triggers, and stored procedure features.

Sofia 28.09 - 02.10 Yassen, Hubenov

## Project Management

Location Date Instructor

### Project 2003 Professional, 1 day

In this course, students use Microsoft Project Professional 2003 to create, coordinate, and communicate project information in a consistent and efficient manner within the framework of an Enterprise Project Management environment.

Sofia 22.10 - 23.10

### Project 2007 - Level 2, 1 day

In this course, students exchange project plan data with other applications, update project plans, create visual reports, and reuse project plan information.

Sofia 22.10 - 23.10 Boriana, Petrova

### Project Management Certification (PMP), 5 day

Sofia 05.11 - 06.11 Hristo, Zehirev

### Project Management for Professionals (PMP Exam Preparation), 5 day

In this course, students will apply the generally accepted project management best practices recognized by the PMI® to successfully manage projects.

Sofia 12.10 - 16.10 Rolly, Perreux

## Security

Location Date Instructor

### Certified Pen Testing Specialist (CPTS), 5 day

CPTS is built upon proven hands-on Pen Testing methodologies as utilized by our international group of vulnerability consultants. Mile2 trainers keep abreast of their expertise by practicing what they teach because we believe that an equal emphasis on theoretical and real world experience is essential for effective knowledge transfer to you, the student.

Sofia 26.10 - 30.10 Deniz, Kaya

### CISSP: Certified Information Systems Security Professional, 5 day

This course addresses the essential elements of the 10 domains that comprise a Common Body of Knowledge. It offers a job-related approach to the security process, and provides basic skills required to prepare for CISSP certification.

Sofia 26.10 - 30.10 Bhar, Aman

### CPTE Certified Penetration Testing Expert™, 5 day

Sofia 09.11 - 13.11

### Forensics Bootcamp, 5 day

The Forensics 5-day bootcamp consolidates all content from the 3-day Digital Forensics & Electronic Discovery Training class and the 3-day Advanced Digital Forensic Techniques Training class into a succinct yet comprehensive format

Sofia 23.11 - 27.11 Anderson, Duane

## UNIX - LINUX

Location Date Instructor

### HP-UX system and network administration II, 5 day

Sofia 05.10 - 09.10 Velin, Alexander

### Linux Advanced System and Network Administration - LPI Certification, 5 day

In this course, students implement and manage web, file, and security features, troubleshoot system and network problems. The course includes skills needed to provide advanced features and services to users of the Linux network.

Sofia 02.11 - 06.11 Hristo, Erinin

## Linux System Administration - LPI Certification, 5 day

In this course, student with basic knowledge of computer hardware and system administration will focus on Linux system administration and prepare to take the LPI 101 and 102 exams. Students will install, configure, and manage Linux systems.

Sofia	19.10 - 23.10	Hristo, Erinin
-------	---------------	----------------

## CCNA

Location	Date	Instructor
----------	------	------------

### ICND1 Interconnecting Cisco® Networking Devices Part 1, 5 day

This course focuses on providing the skills and knowledge necessary to install, operate, and troubleshoot a small branch office Enterprise network, including configuring a switch, a router, and connecting to a WAN and implementing network security.

Sofia	19.10 - 23.10	Deniz, Kaya
-------	---------------	-------------

### ICND2 Interconnecting Cisco® Networking Devices Part 2, 5 day

This course focuses on skills and knowledge necessary to install, operate, and troubleshoot a small to medium-size branch office Enterprise network, including configuring several switches and routers, connecting to a WAN and implementing network security.

Sofia	09.11 - 13.11	Deniz, Kaya
-------	---------------	-------------

## CCNP

Location	Date	Instructor
----------	------	------------

### BCMSN Building Cisco® Multilayer Switched Networks, 5 day

In this course, students will learn how to create an efficient and expandable enterprise network by installing, configuring, monitoring, and troubleshooting network infrastructure equipment (especially Catalyst Multilayer Switches) according to the Campus Infrastructure module in the Enterprise Composite Network model. The campus switched network includes converged IP data, IPC (voice), and Airspace WLAN (Wireless) connectivity

Sofia	05.10 - 09.10	Deniz, Kaya
-------	---------------	-------------

### ISCW Implementing Secure Converged Wide Area Networks, 5 day

In this course, student will learn to secure and expand the reach of their enterprise network to teleworkers and remote sites. Focus is on securing remote access and VPN client configuration.

Sofia	05.10 - 09.10	
-------	---------------	--

### ONT Optimizing Converged Cisco Networks, 5 day

In this course, students receive training for skills in optimizing and providing effective QOS techniques in converged networks operating voice, wireless and security applications.

Sofia	05.10 - 09.10	
-------	---------------	--

## CCSP

Location	Date	Instructor
----------	------	------------

### Cisco Securing Networks with ASA Fundamentals (SNAF) v1.0, 5 day

This course updates Securing Networks with PIX and ASA (SNPA) v5.0. In SNAF 1.0, the ASDM 6.0 graphical user interface (GUI) is used for configuration and monitoring. Although all lessons and labs are now GUI-based, the commands for each configuration task are also presented in the lessons for those who prefer to configure the security appliance via the command line interface (CLI). In SNAF 1.0, lessons have been updated to cover new features in Cisco ASA and PIX Security Appliance Software Version 8.0(2).

Sofia	02.11 - 06.11	Deniz, Kaya
-------	---------------	-------------

## CCVP

Location	Date	Instructor
----------	------	------------

### CIPT1 Cisco® IP Telephony Part 1, 5 day

This course prepares you for installing, configuring, and maintaining a Cisco IP telephony solution.

Sofia	26.10 - 30.10	
-------	---------------	--

### CIPT2 Cisco® IP Telephony Part 2, 5 day

This course is designed to provide learners with the necessary knowledge and skills to enable video calls and to secure, monitor, and manage a Cisco Unified Communications solution based on Cisco Unified CallManager, the call-routing and signaling component of the Cisco Unified Communications solution.

Sofia	23.11 - 27.11	
-------	---------------	--

### QoS Implementing Cisco Quality of Service, 5 day

Sofia	16.11 - 20.11	Stoitsev, Stoyan
-------	---------------	------------------

## COMMUNICATIONS

Location	Date	Instructor
----------	------	------------

### Implementing Cisco® MPLS Traffic Engineering and Other Features (MPLS), 3 day

Sofia	09.11 - 13.11	
-------	---------------	--

## Messaging

Location Date Instructor

### 5054 Designing a High Availability Messaging Solution Using Microsoft Exchange Server 2007, 2 day

This course teaches messaging engineers to design a high availability messaging solution using Microsoft Exchange Server 2007. Students will create a high availability design to meet service level agreement requirements and learn strategies for gaining approval for the design. They will learn how to identify risks and create mitigation plans to maintain the business continuity of the messaging system. Students will also learn how to design a backup strategy, disaster recovery procedures, and test plans for those procedures.

Sofia 15.10 - 16.10 Christian, Schindler

## Security-MOC

Location Date Instructor

### 2821 Deploying and Managing a Public Key Infrastructure, 4 day

This course provides students with the knowledge and skills to design, deploy, and manage a public key infrastructure (PKI) to support applications that require distributed security.

Sofia 19.10 - 22.10 Darin, Yonchev

## SQL Server

Location Date Instructor

### 2778 Writing Queries Using Microsoft SQL Server 2005 Transact-SQL, 3 day

Sofia 02.11 - 04.11 Stefan, Georgiev

### 2779 Implementing a Microsoft SQL Server 2005 Database, 5 day

This course provides students with product knowledge and skills needed to implement a Microsoft SQL Server 2005 database. The course focuses on teaching individuals how to use SQL Server 2005 product features and tools related to implementing a database.

Sofia 05.10 - 09.10 Andrey, Yordanov

### 2780 Maintaining a Microsoft SQL Server 2005 Database, 5 day

This course provides students with product knowledge and skills needed to maintain a Microsoft SQL Server 2005 database. The course focuses on teaching individuals how to use SQL Server 2005 product features and tools related to maintaining a database.

Sofia 02.11 - 06.11 Vladimir, Alexandrov

### 2788 Designing a High Availability Database Solutions Using Microsoft SQL Server 2005, 3 day

The course focuses on teaching experienced database administrators working in enterprise environments to design database solutions that meet the availability needs of their organization.

Sofia 16.11 - 18.11 Sava, Nikolov

## Windows Server® 2008

Location Date Instructor

### 6417 Updating your Application Platform Technology Skills to Windows Server® 2008 (Beta 3), 3 day

This course provides students with the knowledge and skills to install and configure Windows Vista desktops. It will focus on four main areas: installing, securing, networking, and browsing. Student learn to install and configure a Windows Vista desktop

Sofia 12.10 - 14.10

### 6420 Fundamentals of Windows Server® 2008 Network Infrastructure and Application Platform (Beta), 5 day

This course introduces network infrastructure and application platform concepts and configurations provided by Window Server 2008. Students will be able to acquire a fundamental understanding in order to pursue advanced topics.

Sofia 12.10 - 16.10 Darin, Yonchev

### 6423 Implementing and Managing Windows Server 2008 Clustering, 3 day

Sofia 12.10 - 14.10 Christian, Schindler

### 6424 Fundamentals of Microsoft Server 2008 Active Directory, 3 day

This instructor-led course provides Active Directory Technology Specialists an introduction to Active Directory server roles in Windows Server 2008. The course is intended for entry level students who want to get familiar with the Active Directory server roles and their basic functionality.

Sofia 19.10 - 21.10 Georgiev, Georgi

### 6425 Configuring and Troubleshooting Windows Server 2008 Active Directory Domain Services, 5 day

(Preliminary Outline) This course provides the knowledge and skills to configure Active Directory Domain Services in a distributed environment, implement Group Policies, perform backup and restore, monitor and troubleshoot Active Directory related issues.

Sofia 09.11 - 13.11 Darin, Yonchev

### 6430 Managing and Maintaining Windows Server 2008 Servers, 5 day

Sofia 02.11 - 06.11 Darin, Yonchev

## Windows Servers and Infrastructure

Location Date Instructor

### 50028 Managing System Centre Operations 2007 (MOM), 5 day

This course provides the knowledge and skills to managing a Systems Center Operations Manager 2007 management group and is intended to develop the necessary skills to install and manage Operations Manager 2007 management servers and supporting roles.

Sofia 12.10 - 16.10 Vassil, Lutckanov

## Databases

Location Date Instructor

### Access 2003 - Level 1, 2 day

In this course, you will be introduced to the concept of the relational database and the Microsoft Office Access 2003 relational database application, and information management tools. Also, you will learn how to design and create a new Access database

Sofia 28.09 - 29.09 Stefan, Georgiev

### Access 2003 - Level 3, 1 day

In this course, students will learn remote database management, how to exchange data with XML and other type applications, and how to automate your business processes by using VBA code.

Sofia 29.10 - 30.10 Stefan, Georgiev

## Presentations

Location Date Instructor

### PowerPoint 2003 - Level 1, 1 day

In this course, students will create effective basic PowerPoint presentations for delivery in front of an audience.

Sofia 06.10 - 07.10 Boriana, Petrova

### PowerPoint 2003 - Level 2, 1 day

In this course, students will enhance presentations with features that will transform basic presentations into those with a powerful means of communication.

Sofia 08.10 - 09.10 Boriana, Petrova

## Spreadsheets

Location Date Instructor

### Excel 2003 - Level 1, 2 days, 2 day

In this course, you will use Microsoft® Office Excel 2003 to manage, edit, and print data.

Sofia 14.10 - 15.10

Sofia 21.10 - 22.10

### Excel 2003 - Level 3, 2 days, 2 day

In this course, students will learn how to automate common tasks, apply advanced analysis techniques to more complex data sets, collaborate on worksheets with others, and share Excel data with other applications.

Sofia 08.10 - 09.10 Stefan, Georgiev

### Excel 2007 - Level 1, 2 days, 2 day

In this course, students create and edit basic Microsoft® Office Excel® 2007 worksheets and workbooks. (Second Edition)

Sofia 02.11 - 03.11 Liliya, Nikolova

### Excel 2007 - Level 3, 2 days, 2 day

In this course, students will learn how to automate common tasks, apply advanced analysis techniques to more complex data sets, collaborate on worksheets with others, and share Excel data with other applications. (Second Edition)

Sofia 26.10 - 27.10 Liliya, Nikolova

## Word processing

Location Date Instructor

### Word 2003 - Level 2, 2 days, 2 day

In this course, students increase the complexity of their Microsoft Office Word 2003 documents by adding components such as customized lists, tables, charts, and graphics. They also create personalized Microsoft Office Word 2003 efficiency tools.

Sofia 12.10 - 13.10

Sofia 19.10 - 20.10
