MENTORED LEARNING = TRAINING AT YOUR PACE

Don't worry about what other students are doing in this class - its all about YOU. You can train at the level that you works for you. Want to skim through the material and try all of the exercises and labs by yourself? Do you prefer reading through everything twice before tackling it on your own? Do you like to mix it up a little and read and work in the program at the same time? Whatever way you like to learn, you can do it in our Mentored Classroom, always guided by our certified trainer who's there to help you through the hard parts, challenge you with labs, give you real life examples and ensure you get the most from your New Horizons technical training.
