

CompTIA Project+ Certification (Exam PK0-004)

Overview

This course is designed to provide you with the skills needed to be a successful project manager in today's rapidly changing world. Additionally, this course can be a significant part of your preparation for the CompTIA® Project+® certification exam.

Target Audience

This course is designed for individuals in various job roles who have a basic knowledge of project management, and who participate in small to medium scale projects.

This course is also designed for students who are seeking the CompTIA® Project+® certification and who want to prepare for the CompTIA® Project+® PK0-004 Certification Exam. A typical student taking the CompTIA® Project+® PK0-004 Certification Exam should have a minimum of 12 months of project management experience. Experience with specific project management software is helpful, but not mandatory.

Course Objectives

In this course, you will apply recognized practices of project management and understand a project's life cycle, roles, and skills necessary to effectively initiate, plan, execute, monitor, control and close a project.

You will:

- Identify the fundamentals of project management.
- Initiate a project.
- Create project plans, stakeholder strategies, and scope statement.
- Develop a Work Breakdown Structure and activity lists.
- Develop project schedule and identify the critical path.
- Plan project costs.
- Create project staffing and quality management plans.
- Create an effective communication plan.
- Create a risk management plan, perform risk analysis, and develop a risk response plan.
- Plan project procurements.
- Develop change management and transition plans.
- Assemble and launch the project team to execute the plan.
- Execute the project procurement plan.
- Monitor and control project performance.
- Monitor and control project constraints.
- Monitor and control project risks.
- Monitor and control procurements.
- Perform project closure activities.

Course Outline
