

Project 2016 - Part 1

Overview

This course is designed to familiarize students with the basic features and functions of Microsoft Project Professional 2016 so they can use it effectively and efficiently in a real-world environment.

Prerequisites

- Microsoft Windows 10: Transition from Windows 7
- Using Microsoft Windows 10

Prerequisite Comments

To ensure your success in this course, you should have basic project management knowledge and skills. You should also have basic knowledge and skills for using any current Windows® operating system—preferably Windows 10. Finally, you should have competency in using other Microsoft Office applications—preferably Office 2016.

To ensure your success in this course, you should have basic project management knowledge and skills. You should also have basic knowledge and skills for using any current Windows® operating system—preferably Windows 10. Finally, you should have competency in using other Microsoft Office applications—preferably Office 2016.

Target Audience

This course is designed for a person with an understanding of project management concepts and who is responsible for creating and maintaining project plans. The course will give the student a fundamental understanding of Microsoft Project 2016 necessary to create and save project plans.

Course Objectives

In this course, you will learn to create and engage in basic management of a project using Microsoft Project Professional 2016. You will:

- Identify project management concepts and navigate the Project 2016 environment.
- Create and define a new project plan.
- Create and organize tasks.
- Manage resources in a project plan.
