

Project 2016 - Part 2

Overview

This course covers the skills a project manager needs to update a project plan during the execution, monitoring, and controlling phases of a project. This course will enable students to manage the project so that it is completed on time & within budget.

Prerequisites

- Project 2016 - Part 1

Prerequisite Comments

To ensure your success in this course, you should have basic project management knowledge and skills. Additionally, you should be able to create a new project plan, manage time in a project plan, manage tasks in a project plan, manage resources in a project pan, and share a project plan using Microsoft Office Project 2016.

Target Audience

This course is designed for students with an understanding of project management concepts who are responsible for creating and maintaining project plans. Target students will be looking to acquire the advanced knowledge and skills a project manager needs to update a project plan in Project 2016 during the execution, monitoring, and controlling phases of a project.

Course Objectives

Upon successful completion of this course, you will be able to manage an existing Microsoft Project 2016 project plan. You will:

- Update a project plan to reflect progress as you execute the project.
- Monitor project progress in the project plan.
- Adjust the project plan to control constraints.
- Create project reports to share a project's status.
- Customize project settings and share customizations with other projects.
